Y	N	?	Poll Closing Checklist-The Machines
			Did pollworker[s] check each machine and write down the public count [votes cast] from each Machine on a form?
			Were the serial numbers of the machines noted on the form?
			Did the pollworkers make known the vote totals for each machine audibly?
			Did the pollworkers let you observe the public count on each machine?
			Were you able to hear the clerk tell Elections the total number of votes cast?
			Were the voting machines packed away and sealed with locking plastic seals?
Y	N	?	Poll Closing Checklist- Voter Certificates & Provisional Ballots
			Did pollworker[s] count each voter certificate in your presence?
			Report the number of <b>Provisional Ballots</b> in the "Y" Column
			Report the number of <b>Challenges</b> in the "Y" Column
			Did the Voter Certificates Match the Public Count of the machines?
			<b>FOR LAST DAY OF EARLY VOTING ONLY:</b> How long did it take to retrieve all the machine counts from the moment they started to download from first machine, to the final tally? (Write hours/minutes in Y/N column)

Notes (use back of sheet if needed)

### Worksheet for totaling the Public Count:

(Listen as they call in the count or follow the specialist from machine to machine as he collects the information)

<u>Machine No.</u>	<u>Public Count</u>
<b>Public Count Total:</b>	
<b>Voter Certificates Count:</b>	
<b>Signature Count (If Taken):</b>
